Company Profile

When it comes to the creation of web-based solutions for higher education institutions, Governet has taken the lead and is transforming education with innovative technology that streamlines and automates curriculum management processes from development to articulation. Governet's core product, CurricUNET, is an award-winning curriculum automation and management system that seamlessly adapts to single- or multi-campus institutions as well as statewide and national education systems. CurricUNET users may access a worldwide database of more than 550,000 course outlines and 23,000 program/degree reports. Through a network of individual institutions and statewide college/university systems, Governet is guiding the development of best practices standards for curriculum databases, workflow and the dissemination of curriculum information to a worldwide network of students and educators. Since its initial development in 1998, CurricUNET has been acquired by more than 300 colleges and universities throughout the U.S. and Canada. CurricUNET also serves entire statewide college systems in California, Illinois and Iowa as well as the national higher education system of the United Arab Emirates. With emphasis on excellence company-wide, Governet has earned exceptional customer satisfaction and loyalty by offering customized database design, customer support and maintenance that helps higher education institutions save time, money and natural resources. For more information about Governet and CurricUNET, please visit www.governet.net.

Mission Statement

Governet is building the worldwide curriculum network – CurricUNET.
